Flying (Capo: 2)
## Cody Fry

Intro   ‖: **G** | **G/C** :‖ *2x*

G   **G/C**
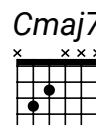

Verse 1   Where did my wings go?

                           G/B

I could've sworn I could fly

                   G/C

Straight up into the sky

G   **G/C**

Boy, I should have known

                    G/B

It was all just a lie

                   G/C

No one on earth can fly

      Am7   **D7**   **D7sus4**

Chorus 1   Thought the things you said would turn out true

      Am7   **D7**   **D7sus4**

      Guess that's what I get for trusting you

      Am7   **C**   **D**   **G**

      You said if I believed enough, I would fly

G/C   **G/B**   **G/C**

      Why didn't I?

G   **G/C**

Verse 2   Did faith let me down

                    G/B

Or did I not have enough?

                   G/C

That distinction is tough

G   **G/C**

Still, I thought your hands

                    G/B

Protected me from the fall

                   G/C

Did you mean that at all?

      Am7   **D7**

Chorus 2   Thought the things you said would turn out true

      Am7   **D7**

      Was it even you I listened to?

      Am7   **C**   **D**

      I thought if I believed enough, I would fly

Cmaj7 **/E**   **D**   **G/B**

Bridge   Air is rushing past, and I can barely see

```
Cmaj7      /E           D                        G/B
        Seems like this fall will be the death of me
Cmaj7  /E           D                              G/B      Cmaj7        G/B
        Any second now, the ground will come to take me            home

Cmaj7  /E           D                   G/B
        Suddenly, a peace that I cannot explain
Cmaj7    /E            D                        G/B
         Feels like the wind is running through my veins
Cmaj7              /E           D                        G/B  C
        Oh, and all that I can do is close my eyes as you lift me up
                    D
You lift me up
```
